Program

Day 1

Individual arrival, welcome and information provided by the mountain guide. Distribution of ordered rental equipment. The acclimatization and preparation tour will take you to the Hohlaub Glacier (training). In the heart of the impressive Valais mountains, you will practice using crampons, an ice axe and rope. This training will ensure you feel confident using the equipment. You'll enjoy dinner in good company and prepare for the following day's adventure. (Distance: 3 km. Duration: 1.5 hours. Ascent/Descent: 200/200 vertical meters).

Day 2

Mountain rail will take you from Felskinn to Mittelallalin at 3,456 m in next to no time. You'll traverse the Fee Glacier, a glaciated plateau of impressive dimensions. At this level, you can get used to the altitude without too much physical effort. The knowledge acquired on day one regarding the use of crampons and ice axes will come in very useful on the steep ascent towards the summit. The ascent to the highest point is worthwhile in every way. In addition to that incredible feeling of having managed to reach the top of a 4,000-meter peak by yourself, you can look forward to a tremendous panoramic view of the Western Valais 4,000-meter peaks, the Mont Blanc area, the Gran Paradiso Chain with the Aosta Valley, the Po Valley all the way to the distant Bernina Group and the Bernese Alps. Congratulations on climbing this impressive 4,000-meter peak! The descent will take you to the Mittelallalin station and from here the train will take you back to the green pastures of the Saas Valley. (Distance: 6.5 km. Duration: 3.5 hours. Ascent/Descent: 550/550 vertical meters).
